

AFA Seminar

# Innovative Sustainable Fertilizers Technologies

28 – 30 May 2024 | Maastricht, Netherlands

AFA is delighted to extend an invitation to our seminar on "Innovative Sustainable Fertilizers Technologies Seminar" in the beautiful city of Maastricht, Netherlands. This event, organized jointly by AFA and Stamicarbon/Tecnimont, promises to be an insightful and engaging gathering of industry experts and professionals.

The seminar is designed to explore and discuss the latest advancements and innovations in sustainable fertilizers technologies. With a focus on promoting environmentally friendly practices and solutions, this event will provide a platform for experts, researchers, industry professionals, and enthusiasts to come together and discuss innovative technologies that promote environmentally friendly and economically viable approaches to fertilization.

The seminar will feature distinguished speakers who are renowned experts in the field. They will share their insights, research findings, and best practices, providing attendees with a comprehensive understanding of the latest developments in sustainable fertilizers technologies.

## Key Topics

- Green Ammonia
- Full value chain approach
- Revamp concepts
- Digitalization
- Urea technology and service

Technical Program by

AFA Seminar

# Innovative Sustainable Fertilizers Technologies

## Why attend?

- To stay informed, build connections and actively participate in the development of sustainable green ammonia technologies.
- To optimize processes, reduce environmental impact, and enhance overall efficiency.
- To enhance your knowledge, stay competitive, and successfully navigate the challenges associated with revitalizing projects, processes, or organizations.
