The Power Of True Efficiency

The thyssenkrupp Industrial Solutions business area is a leading partner for the engineering, construction and service of all industrial plants and systems. In collaboration with our customers we develop top-quality solutions and deliver efficiency, reliability and sustainability over the entire life cycle. Our global network of more than 21,000 employees at over 70 locations enables us to supply turnkey plants worldwide that set benchmarks in terms of value added and resource-friendly technologies.

We are at home in many industries: in addition to chemical, coke, cement and other industrial plants and refineries, our portfolio also includes mining, ore processing and port handling equipment along with corresponding services. In the naval sector we are leading global system supplier for submarines and surface vessels. As an important system partner to our customers in automotive, aerospace and battery industries we optimize value chain and improve performance.

Phosphate Technology Mining and Services
