

**ONLINE SYMPOSIUM**

07 October 2020  
1 pm London time

Dear Colleagues,

The first Online Symposium in the **AFRICA FERTILIZER ECOSYSTEM** series, brought to you by **AFRIQEVENTS**, an AFA-AFRIQOM partnership, will address **Unlocking Africa's Potential**. The latter has been the driver behind multidimensional efforts by the public and private sector for many years. Although we continue to aspire to achieve higher fertilizer consumption rates across the continent, the reality remains that several barriers remain in the way while we must also acknowledge the great progress achieved. The symposium will bring you the unmatched and valuable experience of major organisations active in Africa, day in day out, to shine light on how to further unlock and grow Africa markets based on "boots-on-the-ground" experience.

Sincere thanks to our sponsors, the support of whom is allowing us to offer **FREE REGISTRATION** to encourage knowledge share to achieve our ultimate goal. Drive Africa's markets forwards and upwards.

Head to [www.afrigevents.com](http://www.afrigevents.com) to book your free place in this exceptional online event.

Notes:

- For those who have already sent an email to register, you do not need to do anything now as you are already pre-registered. You will receive a notification from the platform in due course.
- For new registrations, simply go to [www.afrigevents.com](http://www.afrigevents.com) and register

Best Regards,

Eng. Raed Soub  
Secretary General
